NATIONAL BESTSELLER • “A devastating exposé of colleges and local law enforcement.... A substantive deep dive into the morass of campus sex crimes, where the victim is too often treated like the accused.” —Entertainment Weekly Missoula, Montana, is a typical college town, home to a highly regarded state university whose beloved football team inspires a passionately loyal fan base. Between January 2008 and May 2012, hundreds of students reported sexual assaults to the local police. Few of the cases were properly handled by either the university or local authorities. In this, Missoula is also typical. In these pages, acclaimed journalist Jon Krakauer investigates a spate of campus rapes that occurred in Missoula over a four-year period. Taking the town as a case study for a crime that is sadly prevalent throughout the nation, Krakauer documents the experiences of five victims: their fear and self-doubt in the aftermath; the skepticism directed at them by police, prosecutors, and the public; their bravery in pushing forward and what it cost them. These stories cut through abstract ideological debate about acquaintance rape to demonstrate that it does not happen because women are sending mixed signals or seeking attention. They are victims of a terrible crime, deserving of fairness from our justice system. Rigorously researched, rendered in incisive prose, Missoula stands as an essential call to action. "This book examines wilderness filming from all angles. Topics include beginnings of film itself, first attempts at nature and expedition filming, technical developments of the period involving cameras and lenses, and the role film has played in wilderness preservation. The individual contributions of major figures are discussed, and a registry includes information about nature films from the period"--Provided by publisher. An epic visual story of wildlife photography's pioneers and world firsts. From the first-ever shots of nocturnal and underwater animals, right up to the spectacular images from the wildest corners of the earth that modern-day technology allows, Into the Wild is an extraordinary collection of over 250 images and 150 years of our efforts to document the natural world. Now, more than ever, these are the photographs and stories that matter. #1 NATIONAL BESTSELLER • "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism."
—PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that “suggested that a murderous storm was bearing down.” He was wrong. The storm, which claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray, would also provide the impetus for Into Thin Air, Krakauer's epic account of the May 1996 disaster. By writing Into Thin Air, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a
balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of Into Thin Air includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since Into Thin Air's denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored The Climb, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points.

Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind." • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, Vox “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities
throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world. NATIONAL BESTSELLER • From the author of Into the Wild and Into Thin Air, this extraordinary work of investigative journalism takes readers inside America’s isolated Mormon Fundamentalist communities. Defying both civil authorities and the Mormon establishment in Salt Lake City, the renegade leaders of these Taliban-like theocracies are zealots who answer only to God; some 40,000 people still practice polygamy in these communities. At the core of Krakauer’s book are brothers Ron and Dan Lafferty, who insist they received a commandment from God to kill a blameless woman and her baby girl. Beginning with a meticulously researched account of this appalling double murder, Krakauer constructs a multi-layered, bone-chilling narrative of messianic delusion, polygamy, savage violence, and unyielding faith. Along the way he uncovers a shadowy offshoot of America’s fastest growing religion, and raises provocative questions about the nature of religious belief. Spanning an extraordinary range of subjects and locations, these ten gripping essays show why Jon Krakauer is considered a standard-bearer of modern journalism. His pieces take us from a horrifying avalanche on Mount Everest to a volcano poised to obliterate a big chunk of Seattle; from a wilderness teen-therapy program run by apparent sadists to an otherworldly cave
in New Mexico, studied by NASA to better understand Mars; from the notebook of one Fred Beckey, who catalogued the greatest unclimbed mountaineering routes on the planet, to the last days of legendary surfer Mark Foo. Bringing together work originally published in such magazines as The New Yorker, Outside, and Smithsonian—all rigorously researched, vividly written, and marked by an unerring instinct for storytelling and scoop—Classic Krakauer powerfully demonstrates the author’s ambivalent love affair with unruly landscapes and his relentless search for truth. The threatened species categories used in Red Data Books and Red Lists have been in place for almost 30 years. The IUCN Red List Categories and Criteria provide an easily and widely understood system for classifying species at high risk of global extinction, so as to focus attention on conservation measures designed to protect them. This latest version of the classification system was adopted by the IUCN Council in February 2001 and reflects comments from the IUCN and SSC memberships and the final meeting of the Criteria Review Working Group. From the New York Times bestselling author of Nickel and Dimed comes a brave, frank, and exquisitely written memoir that will change the way you see the world. Barbara Ehrenreich is one of the most important thinkers of our time. Educated as a scientist, she is an author, journalist, activist, and advocate for social justice. In LIVING WITH A WILD GOD, she recounts her quest-beginning in childhood-to find "the Truth" about the universe and everything else: What's really going on? Why are we here? In middle age, she rediscovered the journal she had kept during her tumultuous adolescence, which records an event so strange, so cataclysmic, that she had never, in all the intervening years, written or spoken about it to anyone. It was the kind of event that people call a "mystical experience"-and, to a steadfast atheist and rationalist, nothing less than shattering. In LIVING WITH A WILD GOD, Ehrenreich reconstructs her childhood mission, bringing an older woman’s wry and erudite perspective to a young girl's impassioned obsession with the questions that, at one point or another, torment us all. The result is both deeply personal and cosmically sweeping-a searing memoir and a profound reflection on science, religion, and the human condition. With her signature combination of intellectual rigor and uninhibited imagination, Ehrenreich offers a true literary achievement—a work that has the power not only to entertain but amaze. Seminar paper from the year 2014 in the subject American Studies - Literature, grade: 3.0, , language: English, abstract: The aim of this essay is to critically investigate Jon Krakauer’s use of the philosopher Henry David Thoreau’s ideas, principles, notions and beliefs with the purpose of characterizing “Alexander Supertramp” in the book “Into the Wild”. The thesis of this paper is that Jon Krakauer uses Thoreau’s perceptions and views on society, nature and wilderness to interpret Christopher Mc Candless's actions and to illustrate his motives. Krakauer thereby characterizes McCandless as a late “Thoreauvian” transcendentalist. This essay will critically analyze Krakauer’s book and point out perceptions and ideas of Henry David Thoreau that Krakauer uses to illustrate and explain the protagonist’s actions according to his own perception. Differences and similarities between Thoreau and McCandless will also be discussed. The works cited by Thoreau will be his essay “Civil Disobedience” (1849) and his book “Walden” (1854). The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. WE were in mourning for our mother, who had died the preceding autumn, and we had spent all the winter alone in the country-Macha, Sonia and I. Macha was an old family friend, who had been our governess and had brought us all up, and my memories of her, like my love for her, went as far back as my memories of myself. Sonia was my younger sister. The winter had dragged by, sad and sombre, in our old country-house of Pokrovski. The weather had been cold, and so windy that the snow was often piled high above our windows; the panes were almost always cloudy with a coating of ice; and throughout the whole season we were shut in, rarely finding it possible to go out of the house. It was very
seldom that any one came to see us, and our few visitors brought neither joy nor cheerfulness to our house. They all had mournful faces, spoke low, as if they were afraid of waking some one, were careful not to laugh, sighed and often shed tears when they looked at me, and above all at the sight of my poor Sonia in her little black frock. A landmark book by marine biologist Wallace J. Nichols on the remarkable effects of water on our health and well-being. Why are we drawn to the ocean each summer? Why does being near water set our minds and bodies at ease? In BLUE MIND, Wallace J. Nichols revolutionizes how we think about these questions, revealing the remarkable truth about the benefits of being in, on, under, or simply near water. Combining cutting-edge neuroscience with compelling personal stories from top athletes, leading scientists, military veterans, and gifted artists, he shows how proximity to water can improve performance, increase calm, diminish anxiety, and increase professional success. BLUE MIND not only illustrates the crucial importance of our connection to water—it provides a paradigm shifting "blueprint" for a better life on this Blue Marble we call home. The subject of endless speculation, Chris McCandless abrupt journey into the American wilderness and his subsequent mysterious death play a central role in Jon Krakauer's 1996 nonfiction book Into the Wild. This comprehensive edition provides an in-depth analysis of the life, work, and career of author Jon Krakauer, focusing particularly on the theme of coming of age as it relates to Into the Wild. Readers are presented with a series of essays that tackle questions about McCandless' death, the substantiality of Krakauer's theories, and the parallels between McCandless' story and other travel-based coming of age stories. Modern perspectives on coming of age and travel narratives are also discussed, allowing readers examine concepts such as self-actualization, the relationship between travel and gender, and the dangers of inexperienced traveling. The story of Chris McCandless, who gave away his savings, hitchhiked to Alaska, walked into the wilderness alone, and starved to death in 1992, fascinated not just New York Times bestselling author Jon Krakauer, but the rest of the nation too. Krakauer's book and a Sean Penn film skyrocketed Chris McCandless to worldwide fame, but the real story of his life and his journey has not yet been told until now. Supports the Common Core State Standards Where others saw only sage, a salt lake, and a great desert, the Mormons saw their ?lovely Deseret,? a land of lilacs, honeycombs, poplars, and fruit trees. Unwelcome in Ohio, Missouri, and Illinois, they migrated to the dry lands between the Rockies and the Sierra Nevada to establish Mormon country, a wasteland made green. Like the land the Mormons settled, their habits stood in stark contrast to the frenzied recklessness of the American West. Opposed to the often prodigal individualism of the West, Mormons lived in closely knit ?øsome say ironclad ?øcommunities. The story of Mormon country is one of self-sacrifice and labor spent in the search for an ideal in the most forbidding territory of the American West. Richard W. Etulain provides a new introduction to this edition. From the acclaimed author of Death in the Air ("Not since Devil in the White City has a book told such a harrowing tale"—Douglas Preston) comes the riveting story of the birth of criminal investigation in the twentieth century. Berkeley, California, 1933. In a lab filled with curiosities--beakers, microscopes, Bunsen burners, and hundreds upon hundreds of books--sat an investigator who would go on to crack at least two thousand cases in his forty-year career. Known as the "American Sherlock Holmes," Edward Oscar Heinrich was one of America's greatest--and first--forensic scientists, with an uncanny knack for finding clues, establishing
evidence, and deducing answers with a skill that seemed almost supernatural. Heinrich was one of the nation's first expert witnesses, working in a time when the turmoil of Prohibition led to sensationalized crime reporting and only a small, systematic study of evidence. However with his brilliance, and commanding presence in both the courtroom and at crime scenes, Heinrich spearheaded the invention of a myriad of new forensic tools that police still use today, including blood spatter analysis, ballistics, lie-detector tests, and the use of fingerprints as courtroom evidence. His work, though not without its serious--some would say fatal--flaws, changed the course of American criminal investigation. Based on years of research and thousands of never-before-published primary source materials, American Sherlock captures the life of the man who pioneered the science our legal system now relies upon--as well as the limits of those techniques and the very human experts who wield them. Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times

In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given $25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page. Weaving a tapestry of fact and fiction, Sara Donati's epic novel sweeps us into another time and place . . . and into a breathtaking story of love and survival in a land of savage beauty. It is December of 1792. Elizabeth Middleton leaves her comfortable English estate to join her family in a remote New York mountain village. It is a place unlike any she has ever experienced. And she meets a man unlike any she has ever encountered—a white man dressed like a Native American: Nathaniel Bonner, known to the Mohawk people as Between-Two-Lives. Determined to provide schooling for all the children of the village, Elizabeth soon finds herself locked in conflict with the local slave owners as well as with her own family. Interweaving the fate of the Mohawk Nation with the destiny of two lovers, Sara Donati's compelling novel creates a complex, profound, passionate portrait of an emerging America. NOW A MAJOR MOTION PICTURE The #1 New York Times bestselling worldwide sensation with more than 15 million copies sold, “a painfully beautiful first novel that is at once a murder mystery, a coming-of-age narrative and a celebration of nature” (The New York Times Book Review). For years, rumors of the “Marsh Girl” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. Where the Crawdads Sing is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Delia Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps. No one writes about mountaineering and its attendant victories and hardships more brilliantly than Jon Krakauer. In this collection of his finest essays and reporting, Krakauer writes of mountains from the memorable perspective of one who has himself struggled with solo madness to scale Alaska’s notorious Devils Thumb. In Pakistan, the fearsome K2 kills thirteen of the world’s most experienced mountain climbers in one horrific summer. In Valdez, Alaska, two men scale a frozen waterfall over a four-hundred-foot drop. In France, a hip international crowd of rock climbers, bungee jumpers, and paragliders figure out new ways to risk their lives on the
towering peaks of Mont Blanc. Why do they do it? How do they do it? In this extraordinary book, Krakauer presents an unusual fraternity of daredevils, athletes, and misfits stretching the limits of the possible. From the paranoid confines of a snowbound tent, to the thunderous, suffocating terror of a white-out on Mount McKinley, Eiger Dreams spins tales of driven lives, sudden deaths, and incredible victories. This is a stirring, vivid book about one of the most compelling and dangerous of all human pursuits. “The Wild Inside is an unusual love story and a creepy horror novel — think of the Brontë sisters and Stephen King.” —John Irving

A promising talent makes her electrifying debut with this unforgettable novel, set in the Alaskan wilderness, that is a fusion of psychological thriller and coming-of-age tale in the vein of Jennifer McMahon, Chris Bohjalian, and Mary Kubica. A natural born trapper and hunter raised in the Alaskan wilderness, Tracy Petrikoff spends her days tracking animals and running with her dogs in the remote forests surrounding her family’s home. Though she feels safe in this untamed land, Tracy still follows her late mother’s rules: Never Lose Sight of the House. Never Come Home with Dirty Hands. And, above all else, Never Make a Person Bleed. But these precautions aren’t enough to protect Tracy when a stranger attacks her in the woods and knocks her unconscious. The next day, she glimpses an eerily familiar man emerge from the tree line, gravely injured from a vicious knife wound—a wound from a hunting knife similar to the one she carries in her pocket. Was this the man who attacked her and did she almost kill him? With her memories of the events jumbled, Tracy can’t be sure. Helping her father cope with her mother’s death and prepare for the approaching Iditarod, she doesn’t have time to think about what she may have done. Then a mysterious wanderer appears, looking for a job. Tracy senses that Jesse Goodwin is hiding something, but she can’t warn her father without explaining about the attack—or why she’s kept it to herself. It soon becomes clear that something dangerous is going on . . . the way Jesse has wormed his way into the family . . . the threatening face of the stranger in a crowd . . . the boot-prints she finds at the forest’s edge. Her family is in trouble. Will uncovering the truth protect them—or is the threat closer than Tracy suspects? LA VERITÀ MAI RACCONTATA SU CHRIS MCCANDLESS NEL LIBRO-RIVELAZIONE DELLA SORELLA DEL DISCUSSO PROTAGONISTA DI «INTO THE WILD». Nel 1993 Jon Krakauer pubblicò un articolo sulla rivista «Outside», intitolato «Death of an Innocent» (Morte di un innocente). Le parole di Krakauer sul giovane Chris McCandless che aveva trovato la morte in Alaska, dopo aver abbandonato la famiglia e aver vissuto per mesi senza soldi, viaggiando da solo nella wilderness, sollevarono un polverone. Chi considerò Chris un sognatore, chi un pazzo, chi un illuso, chi un idealista, chi un ribelle. Krakauer decise allora di trasformare l’articolo in un libro, «Nelle terre estreme», che ebbe un successo straordinario e che ispirò Sean Penn nel film «Into the Wild». Chris McCandless è suo malgrado diventato un mito: rappresenta la giovinezza che non ha paura di perdere tutto pur di seguire i suoi sogni. Ma Chris è anche un ragazzo in carne e ossa, con una famiglia che ha abbandonato. E le ragioni della sua scelta sono quelle che Krakauer aveva cercato di comprendere con l’aiuto della sorella di Chris, Carine. Ma Carine aveva chiesto a Krakauer di rispettare il silenzio su alcuni aspetti della vita del fratello che coinvolgevano i genitori e lei stessa. Tuttavia, a più di vent’anni dalla morte di Chris, Carine ha deciso che è ora di raccontare anche quella parte di verità che era rimasta in ombra. E racconta la storia della propria famiglia, di un padre violento, bigamo e, al tempo stesso, religiosissimo, di una madre sottomessa e insieme complice, spiegando perché la scelta di Chris «è stata la cosa più sensata che potesse fare». Un libro coraggioso, lucido, sensibile, la descrizione di una famiglia devastata e devastante, la storia di un ragazzo che si conferma una persona straordinaria... In April 1992, a young man from a well-to-do family hitchhikes to Alaska and walks alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body is found by a moose hunter. How Chris McCandless came to die is the unforgettable story of Into the Wild. “This is a gorgeous, lyrical, hilarious, important book. . . . Read this and you may find yourself instinctively beginning to heal old wounds: in yourself, in others, and just maybe in the
cathedral of the wild that is our true home.”—Martha Beck, author of Finding Your Own North Star

Boyd Varty had an unconventional upbringing. He grew up on Londolozi Game Reserve in South Africa, a place where man and nature strive for balance, where perils exist alongside wonders. Founded more than eighty years ago as a hunting ground, Londolozi was transformed into a nature reserve beginning in 1973 by Varty’s father and uncle, visionaries of the restoration movement. But it wasn’t just a sanctuary for the animals; it was also a place for ravaged land to flourish again and for the human spirit to be restored. When Nelson Mandela was released after twenty-seven years of imprisonment, he came to the reserve to recover. Cathedral of the Wild is Varty’s memoir of his life in this exquisite and vast refuge. At Londolozi, Varty gained the confidence that emerges from living in Africa. “We came out strong and largely unafraid of life,” he writes, “with the full knowledge of its dangers.” It was there that young Boyd and his equally adventurous sister learned to track animals, raised leopard and lion cubs, followed their larger-than-life uncle on his many adventures filming wildlife, and became one with the land. Varty survived a harrowing black mamba encounter, a debilitating bout with malaria, even a vicious crocodile attack, but his biggest challenge was a personal crisis of purpose. An intense spiritual quest takes him across the globe and back again—to reconnect with nature and “rediscover the track.” Cathedral of the Wild is a story of transformation that inspires a great appreciation for the beauty and order of the natural world. With conviction, hope, and humor, Varty makes a passionate claim for the power of the wild to restore the human spirit. Praise for Cathedral of the Wild “Extremely touching . . . a book about growth and hope.”—The New York Times “It made me cry with its hard-won truths about human and animal nature. . . . Both funny and deeply moving, this book belongs on the shelf of everyone who seeks healing in wilderness.”—BookPage A celebration of the visual contributions of the bestiary—one of the most popular types of illuminated books during the Middle Ages—and an exploration of its lasting legacy. Brimming with lively animals both real and fantastic, the bestiary was one of the great illuminated manuscript traditions of the Middle Ages. Encompassing imaginary creatures such as the unicorn, siren, and griffin; exotic beasts including the tiger, elephant, and ape; as well as animals native to Europe like the beaver, dog, and hedgehog, the bestiary is a vibrant testimony to the medieval understanding of animals and their role in the world. So iconic were the stories and images of the bestiary that its beasts essentially escaped from the pages, appearing in a wide variety of manuscripts and other objects, including tapestries, ivories, metalwork, and sculpture. With over 270 color illustrations and contributions by twenty-five leading scholars, this gorgeous volume explores the bestiary and its widespread influence on medieval art and culture as well as on modern and contemporary artists like Pablo Picasso and Damien Hirst. Published to accompany an exhibition on view at the J. Paul Getty Museum at the Getty Center May 14 to August 18, 2019. Golding’s iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued. Greg Mortenson, the bestselling author of Three Cups of Tea, is a man who has built a global reputation as a selfless humanitarian and children’s crusader, and he’s been nominated for the Nobel Peace Prize. But, as bestselling author Jon Krakauer demonstrates in this extensively researched and penetrating book, he is not all that he appears to be. Based on wide-ranging interviews with former employees, board members, and others who have intimate knowledge of Mortenson and his charity, the Central Asia Institute, Three Cups of Deceit uncovers multiple layers of deception behind Mortenson’s public image. Was his crusade really inspired by a desire to repay the kindness
of villagers who nursed him back to health when he became lost on his descent down K2? Was he abducted and held for eight days by the Taliban? Has his charity built all of the schools that he has claimed? This book is a passionately argued plea for the truth, and a tragic tale of good intentions gone very wrong. 100% of Jon Krakauer’s proceeds from the sale of Three Cups of Deceit will be donated to the “Stop Girl Trafficking” project at the American Himalayan Foundation (www.himalayan-foundation.org/live/project/stop girltrafficking). By the fourth century A.D., devout Christians—men and women alike—had begun to retreat from cities and villages to the deserts of North Africa and Asia Minor, where they sought liberation from their corrupt society and the confining shell of the social self. The Desert Fathers is the perfect introduction to the stories and sayings of these heroic pioneers of the contemplative tradition. Selected and translated by Helen Waddell, The Desert Fathers opens a window onto early Christianity while presenting us with touchingly human models of faith, humility, and compassion. With a new Preface by the Cistercian monk, writer, and revered teacher of contemplative prayer M. Basil Pennington, author of O Holy Mountain and Challenges in Prayer. "God is our home but many of us have strayed from our native land. The venerable authors of these Spiritual Classics are expert guides—may we follow their directions home." --Archbishop Desmond Tutu INTO THE WILD is based on a true story and the bestselling book by Jon Krakauer.
