The Art of Scouting Aug 11 2022 The Art of Scouting delves into the secretive world of hockey prospecting, a world more akin to Cold War-era spying than a casual day in the stands. Scouts decide whether a player has the talent to make the final step to the NHL—or not—but what they do and how they do it are a mystery to most fans. Shane Malloy is one of the first media personalities to be welcomed into the world of scouting and brings to hockey fans an enlightening and fascinating narrative that explains the culture, history, science and art of hockey scouting. Malloy's unique experience—combined with interviews featuring scouts, coaches and hockey executives—will give readers a true understanding and appreciation for what scouts do and how they do it. It really takes to make it to the NHL, and how to watch the game like a scout. Praise for The Art of Scouting: "If you love hockey but wonder how teams are built and what goes into scouting, then this book is a gem." —Kelly Hrudey, Hockey Night in Canada Analyst "The work that Shane has done is based on knowledge and diligence. PhD Football Jan 12 2020 The scouting and game-preparation processes are conceivably the least exposed and least understood phases of the aggregate football program as it pertains to the general knowledge of the public and the average football aficionado. Supposition and conjecture suggest and imply few individuals, including the most dedicated of football fans, are aware of the time commitment, involvement, depth, and detail comprising the processes of film study, tendency analysis, statistical comparisons, producing the scouting report, computer-software applications, complex digital and video mechanisms, and personnel evaluation. Suffice to say - scouting and game-preparation methods are central to the success of today's football program through the leveraging of innovative technologies, computer software, data analysis, and database management. The ability to appropriately evaluate personnel, assess play-calling tendencies, coordinate large databases of statistics, and analyze various football schemes are all central tenets of the scouting process.
