Cruel Hoax Apr 26 2021 Feminism, our official gender ideology, masquerades as a movement for women's rights. In reality, feminism is a cruel hoax, telling women their natural biological instincts are "socially constructed" to oppress them. Feminism is elite social engineering designed to neuter both sexes. It makes women less fit for marriage and motherhood, and men unable to lead and sacrifice for family. The Rockefellers and Rothschilds created feminism to poison male-female relations (divide and conquer). Their objective is totalitarian world government. Why? These bankers create money out of nothing and think they are God. "Cruel Hoax" shows the connection between religion and feminism. Chapters 9 and 11. It examines male-female relations and help us take back our heterosexuality.

Illuminate 2 Nov 14 2022 THE EMERGING NEW WORLD ORDER A depraved satanic cult called the Illuminati is waging a covert war against humanity. This is the key to understanding mankind's tragic history and current predicament. For more than a thousand years, Cabalist money lenders have conspired to usurp power from church and aristocracy, according to a plan detailed in "The Protocols of the Elders of Zion." This plan does not represent Jews, but only a small cabal of bankers who organized in Masonic secret societies. They intermarried with prominent Gentiles and formed a vast occult and criminal underground. They are stealthily constructing a totalitarian world government. Taking God's place, secularism is a transition step to their Satanism. They involve nations in needless wars and enthrall the masses with porn, violence, trivia and toys. They attack our sources of identity and love - God (religion); family (gender); country and race - in order to stymie and dehumanize us. Sounds incredible, but after reading some of these 80 short essays, you'll nod in agreement. Their empire is partly based on mind control. If you know the truth, they lose you.

The 48 Laws of Power

Mar 26 2021

Amazing, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control — from the author of The Laws of Human Nature. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package. The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Women and Deception

Jun 28 2021

This book is written to fulfill a two-fold purpose: First, to expose the spirit of deception and its companions-denial, betrayal and seduction and revealing how they creep into the lives of a large majority of single women, surrounded by secrecy, perversion and greed and cleverly hidden behind lust and seduction. Secondly, to sound the clarion call, especially to those within the faith that there is a demonically inspired and crafty spirit lurking in the shadows waiting and plotting to attack any woman open to its ploys, whose goal is to destroy their God ordained purpose and curtail their destiny. I believe that as you read this book, understanding that deception works using lust to perform what appears to be true love, but beyond the veil of denial, there is a counterfeit monster of deception. My prayers are that as you read this book, understanding that deception works using lust to perform what appears to be true love, but beyond the veil of denial, there is a counterfeit monster of deception. My prayers are that as you read this book, you will not fall to its prey.

The Art of Deception

Jun 16 2020

The world’s most infamous hacker offers an insider’s view of the low-tech threats to high-tech security Kevin Mitnick’s exploits as a cyber-desperado and fugitive form one of the most exhaustive FBI manhunts in history and have spawned dozens of articles, books, films, and documentaries. Since his release from federal prison, in 1998, Mitnick has turned his life around and established himself as one of the most sought-after computer security experts worldwide. Now, in The Art of Deception, the world’s most notorious hacker gives new meaning to the old adage, “It takes a thief to catch a thief.” Focusing on the human factors involved with information security, Mitnick explains why all the firewalls and encryption protocols in the world will never be enough to stop a savvy grifter intent on rifling a corporate database or an irate employee determined to crash a system. With the help of many fascinating true stories of successful attacks on business and government, he illustrates just how susceptible even the most locked-down information systems are to a slick con artist impersonating an IRS agent. Narrating from the points of view of both the attacker and the victims, he explains why each attack was so successful and how it could have been prevented in an engaging and highly readable style reminiscent of a true-crime novel. And, perhaps most importantly, Mitnick offers advice for preventing these types of social engineering hacks through security protocols, training programs, and manuals that address the human element of security.
