A riveting lineup of the world's most famous and infamous arrests, from Lizzie Borden (double murder) to Lindsay Lohan (DUI) to Roman Polanski (unlawful sexual intercourse). Although the headlines fade, the humiliation, vulnerability, and sometimes chilling smugness of the alleged criminal in the mug shot stands the test of time. Covering 150 years of run-ins with the law, Busted reveals more than 500 of the most famous, disturbing, and just plain pathetic mug shots ever recorded. Subjects from all walks of life face front and turn to the left in this enthralling slice of social history. Among the alleged perpetrators are James Brown (carrying an unlicensed weapon and assaulting a police officer), Lenny Bruce (obscenity), Bill Gates (running a red light, driving without a license), Al Capone (tax evasion), Jeffrey Dahmer (rape, torture, murder, cannibalism), Eminem (assault), Mick Jagger (drugs charges), Malcolm X (burglary), Al Pacino (carrying a concealed weapon), Charles Barkley (disorderly conduct), Frank Sinatra (morals charges), Bernie Madoff (securities fraud, investment adviser fraud, mail fraud, wire fraud, money laundering, perjury, making false filings with the SEC, theft from an employee benefit plan), Bugsy Siegel (gambling and bootlegging), Tupac Shakur (sexual assault), Roger Clinton (drug dealing), and hundreds more. The date of the arrest is provided, along with the fascinating, shocking, and sometimes ludicrous stories of the circumstance that led to the arrest, as well as occasional details of the trial and punishment (or merely the humble apology) that followed. Impossible to turn away from, Busted is the perfect coffee-table or gift book for our celebrity-obsessed society. So close, and so far away. Ron was driving her crazy, even though he had barely made a single move in her direction. Martya’s arousal rose with every breath she took, taking in his clean male scent. If the kids hadn’t been in the same room, she thought, smiling, she would have already been naked. She shivered at the thought of them making love someday, in front of the fire, the warm orange light gilding their bodies. Which didn’t mean she couldn’t do anything about the situation. As he spoke quietly, telling her about his theories about love and witches and Disney movies, she moved her hand under the blanket. With quick, deft moves, she unbuttoned his jeans and slipped her hand under the waistband. Jackpot. His manhood filled her hand, hot and hard and erect, and she had to bite her lip to stifle the moan of longing which would have had the girls looking at her curiously. As it was, his softly-spoken narrative stumbled to a halt as she stroked him, and he was unable to pick up the tangled threads of conversation. “What’s the matter?? she teased, running her fingers up and down his length. And damn, what a length it was! ?Cat got your tongue? Or does something else?have something else?? A muted groan, little more than a huff of air, was her only answer. ?From the first moment that I saw you, in the store,? she murmured, leaning close so she could whisper into his ear, ?I wanted you.? She followed up the words with a sharp nip to his earlobe, which won a startled jerk. She licked the lobe in apology, then took it into her mouth, sucking softly. ?So young. And no idea how hot you were. ?Of course,? she continued, choosing brutal honesty, ?if I had thought you were just jacking things from the store to get your kicks, I would have hauled your ass in to the station and turned you over to the cops, and never given you a second thought. ?Good thing I wasn’t then, isn’t it?? ?Oh, yes. And it?ś always nice to know that your interest is returned.? She ran her thumb around his crown, spreading his moisture around and around the soft flesh, feeling him shiver in frustrated longing. She could sense him shifting on the couch, his hips lifting to push himself into her hand, and smiled. Over the past year, when she had been almost numb from the loss of Harry’s death, she had wondered whether she was still attractive. Ron’s unabashed desire for her woke a feeling of fierce pride inside her. “I?m going to wear his young ass out, she thought. This book outlines the many experiences that I have been faced with in my life from birth to age 48. Several stories are quite comical, others are tragic and sad, but each and every one of them is true. It talks about my experiences with drugs, alcohol and death. It tells of my devotion to my family and to the less fortunate in this world. I have spent countless hours donating my rare blood, platelets, bone marrow and serums. This book tells the reason why I did this all my life, and what I have experienced with several business ventures. My first business was a plumbing company, which I started fresh out of high school. I was in business for over 17 years. I have spent several years managing rock bands, acting, and inventing. My most successful invention Plink, has been on grocery store shelves for over 12 years. I take great pride in what I do and I have always strived for perfection. I believe that persistence is the key to happiness and happiness leads to prosperity. Although I am not a rich man, I have been very successful in my life. I have owned 13 brand new cars, 3 Harley Davidson motorcycles, 5 boats, 5 houses, 4 vacant lots, 38 used cars, and I have had 56 jobs. Many of my success stories are described in detail throughout my book. The most interesting part of my book is my experience with my most recent company, Arizona Company Medical. Through Arizona Company Medical, I spent 3 years of my life furnishing Medical-Marijuana to hundreds of patients around the USA who were suffering from AIDS, Multiple Sclerosis, Cancer, Migraines, Anorexia, Glaucoma and many other diseases. Medical-Marijuana can be prescribed to ease the pain and suffering that accompanies these diseases. Also included in my book is the true story of how I was issued a Cannabis and Controlled Substance Dealer’s License from the Arizona Department of Revenue, how the
Federal Government collected taxes from the money I made in my business, but then busted me for distributing the same substance that I was licensed for. Details of my business and the Medical-Marijuana bust are outlined in my story. Also included are several real letters from patients who were customers of Arizona Company Medical, who wrote to me to inform me of their progress now that they have the appropriate access to their much needed medication, Medical-Marijuana. My goal is to work towards the legalization of Medical-Marijuana across the USA, and to get the proper help to those that need this medicine. May the Medical-Marijuana movement win the rights for the fight for the people of this great nation. "With a .38 on her hip and 38DD's on her chest, motorcycle cop Marnie Muckleroy is fully equipped and ready for action. Having recently divorced and relocated to the small Texas town where she was born and raised, Marnie is also ready for romance. There's no lack of eligible men in Jacksburg. Problem is, they're eligible for social security, food stamps, or parole"--Back cover. Evidence from Earth Observation Satellites is an edited collection analysing emerging legal issues surrounding the use of satellite data as evidence. It considers whether data from satellite technologies can be a legally reliable, effective evidential tool in contemporary legal systems. Powerful countries like the United States regularly employ economic sanctions as a tool for promoting their foreign policy interests. Yet this foreign policy tool has an uninspiring track record of success, with economic sanctions achieving their goals less than a third of the time they are imposed. The costs of these failed sanctions policies can be significant for the states that impose them, their targets, and the other countries they affect. Explaining economic sanctions' high failure rate therefore constitutes a vital endeavor for academics and policy-makers alike. Busted Sanctions seeks to provide this explanation, and reveals that the primary cause of this failure is third-party spoilers, or sanctions busters, who undercut sanctioning efforts by providing their targets with extensive foreign aid or sanctions-busting trade. In quantitatively and qualitatively analyzing over 60 years of U.S. economic sanctions, Bryan Early reveals that both types of third-party sanctions busters have played a major role in undermining U.S. economic sanctions. Surprisingly, his analysis also reveals that the United States' closest allies are often its sanctions' worst enemies. The book offers the first comprehensive explanation for why different types of sanctions busting occur and reveals the devastating effects it has on economic sanctions' chances of success. What if my dad's best friend finds out all my books' sexy heroes are based on him? If it hadn't been for that mean professor sophomore year, I never would have written an essay about my crush on Navy surgeon Commander Aiden McBride. (Yes, he's just as deliciously stern as that sounds.) And if it hadn't been for my new best friend Ingrid, I wouldn't have thought to turn the essay into the steamy novel that launched my career as an indie romance author. I'm grateful, really! There's just a couple of teeny-tiny things I would do differently if I had it to do over again. But thankfully you can update ebooks, so nobody ever has to know. Phew! I've never expected Aiden to see me as anything but his best friend's daughter, and I'm okay with that. He mostly ignores me anyway. But graduation means I'm too old to hide behind a school-girl infatuation. It's time to move on. If he'll let me, that is. Because somehow Aiden found out what I did. He's not happy. And now I seem to be falling deeper in love. You can tell me the truth - am I totally screwed? Busted is a full-length standalone romance with no cliffhanger and an HEA. A latest entry in the kid-friendly reference series debunks such popular misconceptions as boys being better at math, an apple a day keeping the doctor away and the human race's evolution from chimps. Simultaneous. My name is Brooke. I'm eighteen, and I live a rich life. My mother died when I was young, and my wealthy stepfather who came into my life when I was only two, has raised me as his own. Here's the problem. Dad is so over-protective and his strict rules and curfews are driving me nuts! But, I have a plan. Maybe Dad needs a distraction so I set about providing one for him in hopes that he'll lay off with all his restrictions with me. Sometimes though, the best laid plans backfire. This just might be one of those
ADULT CONTENT In the vein of Erin Brockovich, The Departed, and T. J. English's Savage City comes Busted, the shocking true story of the biggest police corruption scandal in Philadelphia history, a tale of drugs, power, and abuse involving a rogue narcotics squad, a confidential informant, and two veteran journalists whose reporting drove a full-scale FBI probe, rocked the City of Brotherly Love, and earned a Pulitzer Prize. In 2003, Benny Martinez became a Confidential Informant for a member of the Philadelphia Police Department's narcotics squad, helping arrest nearly 200 drug and gun dealers over seven years. But that success masked a dark and dangerous reality: the cops were as corrupt as the criminals they targeted. In addition to fabricating busts, the squad systematically looted mom-and-pop stores, terrorizing hardworking immigrant owners. One squad member also sexually assaulted three women during raids. Frightened for his life, Martinez turned to Philadelphia Daily News reporters Wendy Ruderman and Barbara Laker. Busted chronicles how these two journalists—both middle-class working mothers—formed an unlikely bond with a convicted street dealer to uncover the secrets of ruthless kingpins and dirty cops. Professionals in an industry shrinking from severe financial cutbacks, Ruderman and Laker had few resources—besides their own grit and tenacity—to break a dangerous, complex story that would expose the rotten underbelly of a modern American city and earn them a Pulitzer Prize. A page-turning thriller based on superb reportage, illustrated with eight pages of photos, Busted is modern true crime at its finest. Robert Leon Davis was a respected police officer in New Orleans serving for four years until 1979-when he was arrested. He had begun his career with aspirations of being a great cop. But he was exposed to a darker side of law enforcement. While partnered with a veteran Robert first witnessed an officer violate the very laws he vowed to uphold - and shared his crime. One compromise led to another, and Davis faced arrest. From studying criminal law at Loyola University and becoming an award winning officer, Davis was a fugitive, living off the land in remote forests in America and Canada to elude capture. The church upbringing, where his grandmother made sure he learned about God and Jesus, was abandoned in anger. Through a stranger's prayer the angry atheist realised he was weary of running. He yielded his life to God, and gave himself in. When the District Attorney finally dusted off his file, what would his sentence be? Young people across America were formed and transformed in the 1960s by sex, drugs, rock and roll, peace and love, war and assassination, triumph and loss. The generation's apex in 1967 was ripe with self-discovery and liberation in the heady Summer of Love. The next year brought a summer of hate as we mourned Martin and Bobby. Race riots raged. Friends were killed in Vietnam. Our hopes died in the streets of Chicago. This is the true story of one group of midwestern baby boomers led down the rabbit hole by a rebellious young teacher. They descended in innocence and hit bottom when good people were busted—in Bloomington. With guitar-driven punk pop to rival top US groups like Blink 182 and Wheatus - Busted were a breath of fresh air when they burst onto the scene in 2002 with the catchy single What I Go To School For, followed by Year 3000. Busted aim to be the natural antidote to choreographed boy bands and this book offers a scrapbook of the group's personal rock'n'roll memorabilia, reflecting their rapid rise to fame. Surfing, shooting pool, football, gigging - a series of snapshots of life in young, bright, guitar-driven Britain in 2003. Every tale is told by the lively Busted 18-year-olds, Mattie, Charlie and James, oozing wit, style and charm. Added to the mix are exclusive photographs of the band in recording and television studios, on the road and live on stage during their first tour in May 2003. When Benny Martinez walks into the offices of the Philadelphia Daily News in 2008 to speak with reporter Wendy Ruderman, the paper is on the brink of bankruptcy. What he tells Wendy and her colleague Barbara Laker is too shocking to ignore: his career as a confidential informant for a member of the Philadelphia Police Department's narcotics squad has drawn him into a web of corruption, and now Benny is afraid for his life. Busted is Ruderman and Laker's riveting account of their investigation into the acts committed by
powerful rogue members of the narcotics squad. By dint of perseverance, ingenuity, and good old shoe-leather reporting, the women unraveled a tapestry of lies. Starting with the discovery of fabricated search warrants, they soon find that the scandal encompasses a systematic looting of immigrant-owned businesses and allegations of brutal sexual assault. When Ruderman and Laker produce a devastating series of articles that blows the lid off the scandal, they not only win the fight for justice. They also win a Pulitzer Prize for Investigative Reporting, an unthinkable triumph for two city reporters at a beleaguered local paper. The fiasco that sank millions of Americans, including one journalist, who thought he knew better. A veteran New York Times economics reporter, Ed Andrews was intimately aware of the dangers posed by easy mortgages from fast-buck lenders. Yet, at the promise of a second chance at love, he succumbed to the temptation of subprime lending and became part of the economic catastrophe he was covering. In surprisingly short order, he amassed a staggering amount of debt and reached the edge of bankruptcy. In Busted, Andrew bluntly recounts his misadventures in mortgages and goes one step further to describe the brokers, lenders, Wall Street players, and Washington policymakers who helped bring that money to his door. The result is a penetrating and often acerbic look at the binge and bust that nearly bankrupted the United States. Enabled by know-nothing complacency in Washington, Wall Street wizards used "collateralized debt obligations," "conduits," and other inscrutable financial "innovations" to put American home financing into hyperdrive. Millions of Americans abandoned the safety of thirty-year, fixed-rate mortgages and loaded up on debt. While regulators insisted that the markets knew best, Wall Street firms fragmented and repackaged unsound loans into securities that the rating agencies stamped with triple-A seals of approval. Andrews describes a remarkably democratic debacle that made fools out of people up and down the financial food chain. From a confessional meeting with Alan Greenspan to a trek through the McMansion bubble of the OC, he maps the arc of the Frankenstei loans that brought the American economy to the brink. With on-the-ground reporting from the frothiest quarters of the crisis, Andrews locates what is likely to be the high-water mark in America's long-term embrace of higher borrowing, higher risk-taking, and the fervent belief in the possibility of easy profits. Pinckney reminds us that “white supremacy isn’t back; it never went away.” It is this impulse to see historically that is at the core of Busted in New York and Other Essays, which traces the lineage of black intellectual history from Booker T. Washington through the Harlem Renaissance, to the Black Panther Party and the turbulent sixties, to today’s Afro-pessimists, and celebrated and neglected thinkers in between. These are capacious essays whose topics range from the grassroots of protest in Ferguson, Missouri, to the eighteenth-century Guadeloupian composer Joseph Bologne, from an unsparing portrait of Louis Farrakhan to the enduring legacy of James Baldwin, the unexpected story of black people experiencing Russia, Barry Jenkins’s Moonlight, and the painter Kara Walker. The essays themselves are a kind of record, many of them written in real-time, as Pinckney witnesses the Million Man March, feels and experiences the highs and lows of Obama’s first presidential campaign, explores the literary black diaspora, and reflects on the surprising and severe lesson he learned firsthand about the changing urban fabric of New York. As Zadie Smith writes in her introduction to the book: “How lucky we are to have Darryl Pinckney who, without rancor, without insult, has, all these years, been taking down our various songs, examining them with love and care, and bringing them back from the past, like a Sankofa bird, for our present examination. These days Sankofas like Darryl are rare. Treasure him!”
