Embodying urbanity, intellect and prismatic emotion, this exceptional selection of works from a poet at the forefront of American poetry gives readers a full tour of his celebrated career. The 19th-century author of LITTLE WOMEN, Louisa May
Alcott kept copious journals. Like her fictional alter ego, Jo March, Alcott was a free spirit who longed for independence. In her journals are found hints of Alcott's surprisingly complex persona as well as clues to her double life as an author not only of "high" literature but also of serial thrillers and Gothic romances. 31 photos. Post-war British artist Keith Vaughan (1912-77) was not only a supremely accomplished painter; he was an impassioned, eloquent writer. Image of a Man provides a comprehensive critical reading of his extraordinary journal, uncovering the attitudes and arguments that shaped and reshaped Vaughan's identity as a man and as an artist. Autoethnography is a method of research that involves describing and analyzing personal experiences in order to understand cultural experiences. The method challenges canonical ways of doing research and recognizes how personal experience influences the research process. Autoethnography acknowledges and accommodates subjectivity, emotionality, and the researcher's influence on research. In this book, the authors provide a historical and conceptual overview of autoethnography. They share their stories of coming to autoethnography and identify key concerns and considerations that led to the development of the method. Next, they outline the purposes and practices--the core ideals--of autoethnography, how autoethnographers can accomplish these ideals, and why researchers might choose to do autoethnography. They describe the processes of doing autoethnography, conducting fieldwork, discussing ethics in research, and interpreting and analyzing personal experience, and they explore the various modes and techniques used and involved in writing autoethnography. They conclude with goals for creating and assessing autoethnography and describe the future of autoethnographic inquiry.

Throughout, the authors provide numerous examples of their work and share key resources. This book will serve as both a guide to the practices of doing autoethnography and an exemplar of autoethnographic research processes and representations. The novelist records his thoughts, feelings, and experiences during the writing of The grapes of wrath, in this diary of those years. The 1855 issues of a short-lived academic journal, published the same year, illuminates classics and theology in mid-nineteenth-century Cambridge. The Journal of Negro History, Volume 4, 1919, a classic since it was first published. Mark Twain once derided the Book of Mormon as "chloroform in print." Long and complicated, written in the language of the King James version of the Bible, it boggles the minds of many. Yet it is unquestionably one of the most influential books ever written. With over 140 million copies in print, it is a central text of one of the largest and fastest-growing faiths in the world. And, Grant Hardy shows, it's far from the coma-inducing doorstop caricatured by Twain. In Understanding the Book of Mormon, Hardy
offers the first comprehensive analysis of the work's narrative structure in its 180 year history. Unlike virtually all other recent world scriptures, the Book of Mormon presents itself as an integrated narrative rather than a series of doctrinal expositions, moral injunctions, or devotional hymns. Hardy takes readers through its characters, events, and ideas, as he explores the story and its messages. He identifies the book's literary techniques, such as characterization, embedded documents, allusions, and parallel narratives. Whether Joseph Smith is regarded as author or translator, it's noteworthy that he never speaks in his own voice; rather, he mediates nearly everything through the narrators Nephi, Mormon, and Moroni. Hardy shows how each has a distinctive voice, and all are woven into an integral whole. As with any scripture, the contending views of the Book of Mormon can seem irreconcilable. For believers, it is an actual historical document, transmitted from ancient America. For nonbelievers, it is the work of a nineteenth-century farmer from upstate New York. Hardy transcends this intractable conflict by offering a literary approach, one appropriate to both history and fiction. Regardless of whether readers are interested in American history, literature, comparative religion, or even salvation, he writes, the book can best be read if we examine the text on its own terms. This volume incorporates all the articles and reviews published from 2004 to 2005 in the Journal of Hebrew Scriptures. An eyewitness account of life in Hiroshima during and after the bombing. This abridged edition of Winthrop's journal, which incorporates about 40 percent of the governor's text, with his spelling and punctuation modernized, includes a lively Introduction and complete annotation. It also includes Winthrop's famous lay sermon, "A Model of Christian Charity," written in 1630. As in the fuller journal, this abridged edition contains the drama of Winthrop's life - his defeat at the hands of the freemen for governor, the banishment and flight of Roger Williams to Rhode Island, the Pequot War that exterminated his Indian opponents, and the Antinomian controversy. Here is the earliest American document on the perpetual contest between the forces of good and evil in the wilderness - Winthrop's recounting of how God's Chosen People escaped from captivity into the promised land. While he recorded all the sexual scandal - rape, fornication, adultery, sodomy, and buggery - it was only to show that even in Godly New England the Devil was continually at work, and man must be forever militant. This journal-style book is not your normal run-of-the-mill literary work. Rather, it is a mystery from heaven unveiled---a saving word----a blueprint for every minister and saint of how to receive the mind of God. The content of this journal reads like a tapestry woven by an unseen hand into the multi-colored fabric of each page. Its timeless truths and priceless principles will demand your prayerful attention; indeed a rare find for this day and age. Don't just read this journal, but let it read you. Allow it to impregnate you with a depth of holy desire for intimacy and unbroken fellowship with the Father of spirits. "As the author's writing
advances, so does an awesome 'oneness' with the mind and purpose of the Lord advance with you. This is a great read." Contains primary source material. James Clyman, a literate man in a wild world, was able to set down his extraordinary experiences for posterity. He was a keen and meticulous observer, and his adventures are the stuff of legends. A member of Jedediah Smith's first brigade, Clyman was there when the South Pass was discovered, opening the inter-mountain West. Crossing the country during the great migration of 1846, Clyman encountered the Donner party and gave them sound advice, which they tragically ignored. A few other adventures: He sewed Jim Bridger's ear back on after a grizzly bear attack; explored the Green Valley and the Salt Lake Basin; alone and weary, he walked 600 miles to Fort Atkinson. (Still one of the West's most remarkable tales of survival.) He also kept Bill Sublette from freezing to death en route. Clyman crossed twice to the Pacific and ended up settling in the Napa Valley, raising his family, and writing down his adventures. In his own heartfelt and exciting words, James Clyman gives us his experiences in the heyday of the American fur trade, and during the peak of exploration and immigration to Oregon and California. A must-read for everyone who loves the West. Vol. 77- includes Yearbook of the Association, 1931- "This book is the first in-depth study of the forty short texts James Joyce called "epiphanies." Sangam MacDuff argues that the epiphanies are an important point of origin for Joyce's entire body of work, showing how they shaped the structure, style, and language of his later writings"-- Emmala Reed's journals from 1865 and 1866 present a detailed account of life in western South Carolina as war turned to reconstruction. Reed's postwar writings are particularly important given their rarity - many Civil War diarists stopped writing at war's end. Also unlike many diarists of the period, Reed lived in a small town rather than on a plantation or in an urban center. Growing Up in the 1850s: The Journal of Agnes Lee Covers topics in higher education. Includes book reviews. "An account of Mrs. Prinseps travels, including her experiences in Penang, Malaca, Batavia, Sumatra and Tasmania. In her preface she states "The delay in publication, occasioned
by unforeseen circumstances, will not detract from the value of a book bearing record of Singapore and Van Diemen's Land, as in such new settlements and colonies, society is not susceptible of very rapid changes.".--Abebooks website.
