Alan Turing was an English mathematician, computer scientist, logician, cryptanalyst, philosopher, and theoretical biologist. Turing was highly influential in the development of theoretical computer science, providing a formalisation of the concepts of algorithm and computation with the Turing machine. Playing with fire in Ukraine, the underappreciated risks of... Oct 22 2020 What's more, the United States has tied its own reputation to the outcome of the conflict. U.S. President Joe Biden has labelled Russia's war in Ukraine a genocide and accused Russian President Vladimir Putin of being a war criminal who should face a war crimes trial. Presidential proclamations such as these make it hard to imagine Washington backing down if Russia... Roy Meadow was a British retired paediatrician. He was awarded the Donald Paterson prize of the British Paediatric Association in 1968 for a study of the effects on parents of having a child in hospital. In 1977, he published an academic paper describing a phenomenon dubbed Munchausen Syndrome by Proxy (MSBP). In 1980, he was awarded a... A group of single celebrities join an exclusive dating agency in a bid to find true love. U.S. appeals court says CFPB funding is unconstitutional. The 5th Circuit Court of Appeals ruling sets up a major legal battle and could create uncertainty for fintechs. Newsroom College of the Holy Cross does not discriminate unlawfully in admission to treatment in or employment in its programs and activities on the basis of a person's race, religion, color, national origin, age, marital or parental status, veteran status, sex, disability, genetic information, sexual orientation, gender identity or any other legally... Global warming and climate change skepticism examined. How do floating wind turbines work? The northern California has some of the strongest offshore winds in the U.S. with immense... What's Up Doc (1972) is a comedy directed by Peter Bogdanovich. It stars Barbra Streisand, Ryan O'Neal, Madeline Kahn, and Kenneth Mars. The accidental mix up of four identical plaid overnight bags leads to a series of increasingly wild and wacky situations... Karen Wetterhahn was an American professor of chemistry at Dartmouth College in New Hampshire. She specialized in toxic metal exposure and died of mercury poisoning at the age of 48 due to accidental exposure to the extremely toxic organic mercury compound.
